2022 GOING DIGITAL AWARDS IN INFRASTRUCTURE

Nominate your project for the 2022 *Going Digital Awards in Infrastructure*!

FAQs

What are the 2022 *Going Digital Awards in Infrastructure*?

It is the largest, most prestigious platform for recognizing outstanding infrastructure projects that make our world a better place, specifically those that exemplify digital advancements in infrastructure or empower sustainable development goals. Since 2004, this program has recognized over 4,400 projects representing the extraordinary work of organizations that help sustain and develop the world's infrastructure. The 12 award categories encompass all forms of infrastructure projects and stages—from design, to construction, to operations. The nominated projects are judged by an independent panel of jurors, using criteria specific to each category.

How does the 2022 *Going Digital Awards in Infrastructure* work?

After the projects are submitted, they are reviewed by panels of independent industry experts, and three finalists are chosen in each of the 12 categories. Here's the best part—the finalists will win a trip to London to present their projects in front of the juries and key members of the industry's most influential press. The jurors will then make a final decision on the winners of each category who will be announced at a gala celebration on the final day of the event.

When and where are they held?

The 2022 *Going Digital Awards in Infrastructure* will be held in London in Q4 2022 (dates to be announced).

How long does it take to fill out the submission form?

We suggest users dedicate at least one week for filling out the entire submission form. Why does it take so long? There is a significant amount of information that goes into each submission, as the judges need to see the full scope and details of each project in order to adequately judge them. Gathering the project information, images, and supplemental files could be more time consuming than the actual writing of the form.

Can I save my submission and come back to it at another time?

Absolutely. Once you sign in and start your online submission, you will be able to save it, log out, and log back in whenever you have time. You can access the 'Submission Process' page on YII.Bentley.com/Awards.

Can I submit in a language other than English?

Yes, the submission can be made in any one of the following 11 languages: Chinese, Czech, French, German, Italian, Japanese, Spanish, Korean, Polish, Portuguese, and Russian. While registering on the submission site, you can select the language of your choice.

What are the categories for 2022?

- Bridges and Tunnels
- Construction
- Enterprise Engineering
- Facilities, Campuses, and Cities
- Geoprofessional
- Grid
- Process and Power Engineering
- Rail and Transit
- Roads and Highways
- Structural Engineering
- Surveying and Monitoring
- Water and Wastewater

May I submit the same project to more than one category?

No, a project can only be submitted in one category. However, you may submit as many different projects as you want, in the same category or different categories.

How are projects judged?

Independent panels of judges choose the best three projects in each category as finalists, and they are invited to London to present before the judges and press. The judges assess each project according to these standards:

- Provided quantitative, measurable, numeric data (where applicable)
- Exhibited a sustainable way forward, both economically and environmentally
- Demonstrated innovative use of technology to meet project goals
- Overcame challenges, no matter how big or small the scale of the project
- Leveraged digital innovations and information modeling to create truly integrated projects that deliver intelligent infrastructure

How do I get started with my submission?

Visit the submission site, create a log in, and follow three steps: 1) Fill in the online nomination form, 2) Upload three high-res images, and 3) Accept the terms of the participation agreement.

Watch a one-minute video to help you understand the submission process.
