ASSETWISE®
RAIL CONDITION ANALYTICS

THE FAST TRACK TO IMPROVED RAIL
AND TRANSIT ASSET PERFORMANCE

Bentley®

LINEAR ANALYTICS AND DECISION SUPPORT TOOLS TO **REDUCE RISK AND IMPROVE SAFETY**

Unlock the potential of your organization's data with predictive maintenance strategies using the latest innovations in linear analytics.

AssetWise Rail Condition Analytics enables small to medium-sized rail and transit agencies to rapidly deploy analytical and decision support tools on data they already have. The solution enables organizations to realize a faster return on investment and gain additional confidence as well as maintain linear assets now and in the future.

You will benefit from optimized rail maintenance strategies that improve renewal decisions with minimal time and cost, helping to achieve greater efficiency, easier regulatory compliance, and enhanced operational performance.

ACCELERATE

The Power of a Rapidly Deployed AssetWise for Rail Solution

OPTIMIZE MAINTENANCE AND RENEWAL DECISIONS

BEST PRACTICE
Reduce Costs and Rapid ROI

AssetWise Rail Condition Analytics draws on industry best practices to deliver additional value from your existing track measurement condition data. With pre-configured data import tools and linear analytics, our solution helps reduce the time and cost of deployment, accelerating your organization's return on investment.

VALIDATE
Intelligent Insights and Reporting

Develop proactive strategies using automated key condition score reporting and visibility into past maintenance activities, enabling you to predict and validate future decisions that improve service, safety, and long-term asset reliability.

OPTIMIZE
Future-proof Your Decisions

Previously only available to larger rail and transit agencies, AssetWise Rail Condition Analytics uses predictive technology that enables you to work smarter, providing the insight and visibility you need to optimize and future-proof key maintenance and renewal decisions.

MAINTAIN COMPLIANCE
State of Good Repair

Ensure your rail and transit network is maintained in a state of good repair, increasing the value of your maintenance activities and budget through completion of the right work, in the right place, at the right time.

DRIVING MORE VALUE
FOR YOUR RAIL NETWORK

- Improve overall accessibility, quality, integrity, and relevance of rail asset data.

- Gain better insights into your data and make the best business decisions.

- Ensure your assets are safe, reliable, and efficient over their operating life.

Contact Bentley today to learn more about how AssetWise Rail Condition Analytics can help you improve service, safety, and reliability on your network.
